Nutrislice Essentials Menu Engagement

# Tell your food's story with Nutrislice Essentials.

----

Nutrislice Essentials gives foodservice operations of all sizes the power to easily transform food data into beautiful, modern digital menus packed with all the nutrition information their customers crave. Entice, engage, and inform customers from any device with customizable menu views, nutrition calculators, and interactive widgets inside a fully branded digital experience for every dining location.

## An engaging experience your customers will love.

With Nutrislice Essentials, you can strengthen relationships with your customers through modern, engaging menus that are personalized, transparent, and available everywhere.

## Inspire customers.

Tempt your guests with eye-catching menus, mouth-watering descriptions, and appetizing, high-resolution images of your food.

## Personalize views.

With unlimited icons and filters, your customers can customize their menu views based on language (40+ available), nutritional information, and dietary needs.

## Provide complete nutrition info.

Our dynamic nutrition tools let you easily publish nutrition details like carb counts, allergens, and ingredient lists.

## Connect with your customers.

Bring branded menus directly to your customer's devices and stay top of mind with outreach tools like push notifications & news, so they'll always be in the know.

Х

## A foodservice experience that's delightful to deliver.

Nutrislice Essentials provides one simple, interconnected menu platform for every location that's easily maintained and updated by operational staff - no technical background required. Good looking menus and less work? Yes, please.

## Create flexible menus, fast.

零

Build and edit digital menus in a snap. Whether your menus are static, change frequently, cycle regularly, or feature special offers and events, you have the flexibility you need.

## Guarantee ADA compliance.

Our menus are ADA compliant without the use of third-party tools. We don't take shortcuts and have regular expert audits to confirm compliance.

#### Easy menu management.

Manage menus from anywhere, for every dining location, with our web-based platform. Already have menu data built out? We make it easy to bring in your items from menu planning tools, POS systems, and more.

## Save time & optimize at scale.

Leverage a multitude of administrative features that help you manage an organization of any size. Assign custom roles and permissions, configure options or menus system-wide, lock or unlock select fields for child orgs, disperse branded asset libraries, and more.

## What Nutrislice brings to the table.

- ✓ A frictionless customer experience.
- A flexible and adaptable platform designed to grow with you.
- Successfully deployed across more than 25,000 locations worldwide.

- ✓ A simplified & more complete operator experience.
- A true partner with you from implementation and beyond - so you can be the hero to your customers.
- A world-class customer experience platform built for non-commercial foodservice operations.
