

Nutrislice Showcase

Digital Signage

Take menus to the main stage with Nutrislice Showcase.

Nutrislice Showcase makes it easy for foodservice operations to create attention-grabbing signage by broadcasting beautifully branded, real-time menus across onsite digital screens. With intuitive design tools and integrated menus and location data, Showcase makes modern digital signage easy to create and even simpler to manage.

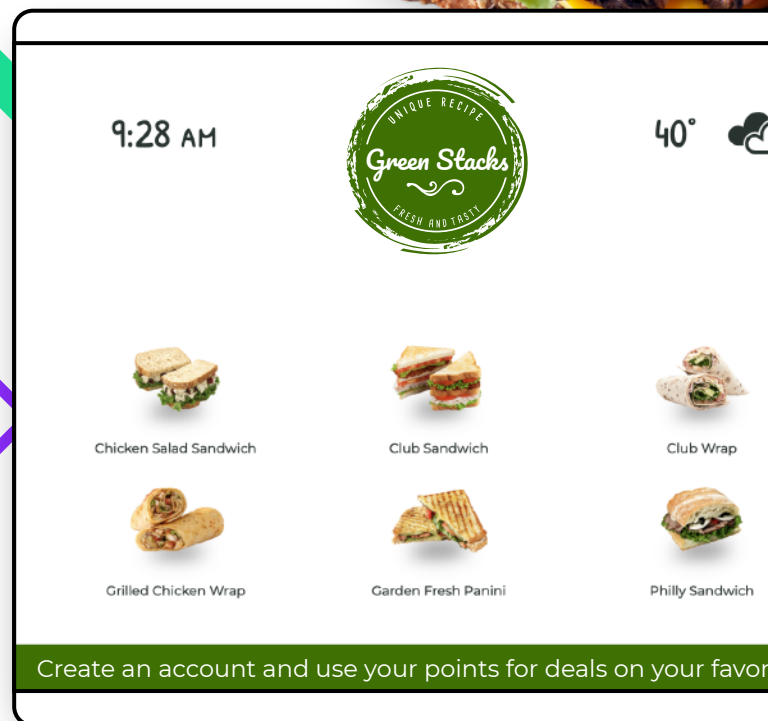

An engaging experience your customers will love.

Capture 400% more views than static displays.

Draw customers in with attractive imagery, highlight specials and high-margin items, and incorporate visual ads for maximum engagement.

Improve marketing effectiveness by 63%.

Display customized content by time of day, location, demographics, and other attributes for highly targeted marketing.

Improve customer experience.

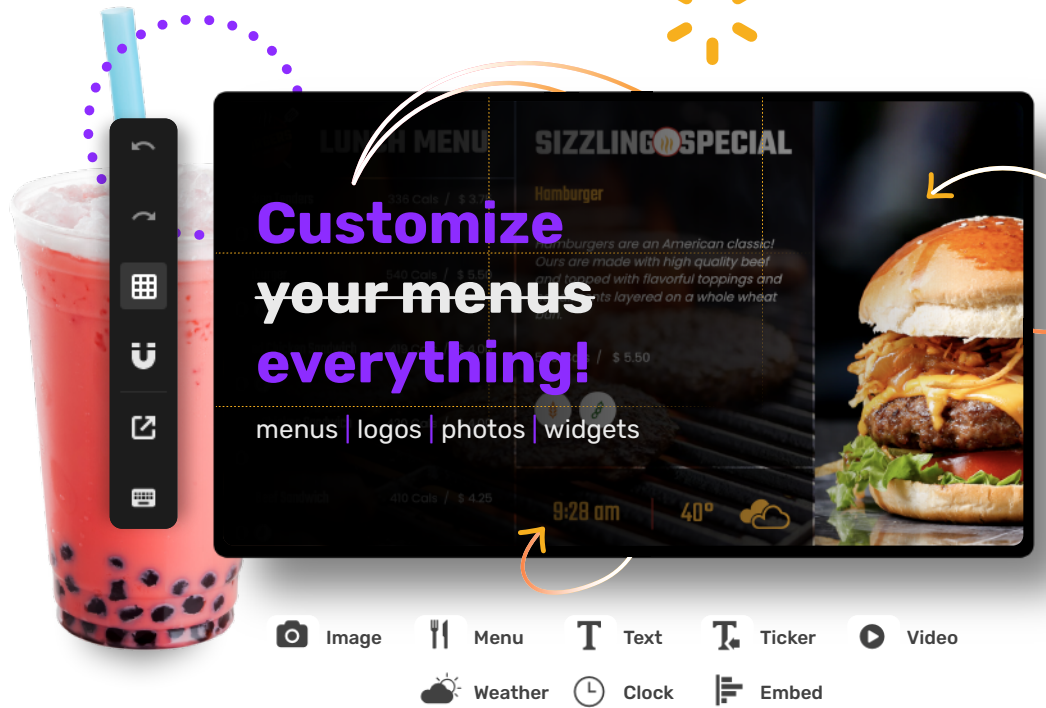

Provide a better, faster customer experience with menu and nutritional data updated in real time. Engaging signage decreases perceived wait time by 35%.

Increase sales volume by 32%.

Dynamically influence purchases from customers in line and at your points of sale.

A foodservice experience that's delightful to deliver.

Nutrislice Showcase empowers operations to fully manage and build their own branded digital signage experiences.

Create displays easily and independently.

Enjoy fully customized designs with our dynamic template builder, make changes from anywhere, and efficiently manage multiple locations with site-specific content.

Update every screen. Instantly.

A change to your menus will automatically update across all of your platforms, so you can say "goodbye" to manually adjusting signage across every location.

Save time.

Automated menu cycles and advanced scheduling of presentations take the painful work out of cycle menus, limited time offers, holidays, event advertising, and more.

Deploy at scale quickly.

Whether you have 10 or 200+ sites, we can get your sites live fast with implementation packages for software, hardware, and installation services.
